English testing for schools

Aptis

English testing for schools

Reliable and accurate English language testing is an essential tool for raising the quality of teaching in your school and showcasing students' progress. To help you achieve these objectives, we designed the Aptis test.

Aptis – the English test from the British Council

Aptis is the accurate, flexible and reliable English test you can trust. It is developed by the British Council's assessment experts to focus on your testing needs. Aptis provides you with an accurate and quick evaluation of the English skills in your school mapped to the Common European Framework of Reference (CEFR).

With Aptis you can:

- assess and monitor the English levels of your students and teachers
- recruit the right staff
- ensure reliable admissions and exit processes
- identify strengths and weaknesses to inform teaching
- place students in the right courses.

Unlock a new competitive advantage for your school by partnering with the British Council.

Optimise your students' learning process

Aptis gives you the level of English of your students in all four language skills – speaking, writing, reading and listening. With reliable results in just 48 hours, you receive a complete picture of their skills mapped to the CEFR.

The Aptis test can be easily integrated in your current system. It does not require specific preparation, just familiarisation with the test format.

Raise your school's profile

Developed by the British Council's leading assessment experts, Aptis is underpinned by the latest research in the field. It is trusted by governments and educational institutions in 85 countries and taken by more than 1.2 million people worldwide.

Showcase students' progress to parents

Aptis tests the ability of students to communicate in English in real-life situations, giving you a trustworthy measure of their real language abilities, which you can showcase to parents with confidence.

Flexible

Quick and accurate results

Computer-delivered

Marked by human examiners

Validated by research

Choose reliable assessment

Aptis is based on our experience of more than 80 years of teaching and testing English worldwide. The content, scoring and delivery of Aptis are managed to high-quality assurance standards and are subject to an ongoing research agenda.

All research and technical information about the test design and specifications, including validation studies by independent researchers, are freely available on our website.

We can make adjustments to the test for candidates with physical or cognitive disabilities and visual or hearing impairments.

Improve your testing process

With Aptis you can test all or specific language skills and get individual and group results in just 48 hours. It can be delivered on demand, at a time, location and frequency of your choice. You can outsource the delivery to our team, freeing up your time and ensuring high security standards. This allows you to optimise the time and resources required for testing in your school.

Assessment designed for your needs

We tailored the content of Aptis specifically for the education sector to help with the assessment of teachers and teenagers.

Aptis for Teachers evaluates general English proficiency of teachers. Its tasks are based on scenarios teachers come across daily.

Aptis for Teens is designed for 13- to 17-year-olds. The test format and question types have been adapted to reflect activities that typically occur in a teenager's everyday life, including social media, homework and sports.

—
We think Aptis is not only a tool to test students, but a tool to help students better communicate in English. It can help us assess the English level of students more accurately.
