Expert English testing

The growing demand for English is driving language policies towards raising the standards of English proficiency among both students and teachers. To support this goal, we designed the Aptis test.

Aptis

Expert English testing

Aptis – the English test from the British Council

Aptis is the accurate, flexible and reliable English test you can trust. It is developed by the British Council's assessment experts. Aptis provides you with a valid and quick evaluation of English skills mapped to the international standard of the Common European Framework of Reference (CEFR).

Aptis for Teachers

Aptis for Teachers has been specifically designed for the education sector. The test content relates to teachers and the scenarios they come across every day. As a result, questions are familiar to them, allowing them to focus purely on the language used.

Aptis for Teachers can be fully integrated into existing systems and managed locally.

With Aptis for Teachers, you can:

- assess English language skills of teachers or academic staff
- conduct English language audits and identify training needs
- identify English language levels of students on teacher training programmes
- evaluate the effectiveness of language development projects.

Flexible and efficient testing

With Aptis for Teachers you control the time, date and place of testing. It is a computer-delivered test which can be set up at a time, location and date of your choice. You can administer the test internally or outsource it to our teams, freeing up your time and ensuring high security standards.

With Aptis you can also choose which language skills to test depending on your needs.

This flexibility allows you to optimise the time and resources required for English language testing in your school and get meaningful results.

We can make adjustments to the test for candidates with physical or cognitive disabilities and visual or hearing impairments.

Accurate and reliable results

Aptis for Teachers tests all four language skills (listening, speaking, reading and writing) and gives you accurate results mapped to the CEFR.

The Aptis speaking and writing parts are marked objectively within 48 hours by our team of trained examiners under strict standards.

The reading, listening, grammar and vocabulary components are marked automatically within the system.

Each candidate receives a score on a numerical scale (0–50) and a CEFR level (A1–C) for each skill they take. This will show their full profile of language proficiency. You can compare individual and group results to identify strengths and weaknesses.

Flexible

Quick and accurate results

Computer-delivered

Marked by human examiners

Validated by research

Aptis

Expert English testing

A trusted assessment solution

Designed by the British Council's assessment experts and backed by extensive research, Aptis is based on more than 80 years' experience in teaching and testing English around the world. It is trusted by institutions in 85 countries and taken by over 1.2 million people worldwide.

We have a comprehensive research agenda and ongoing control and monitoring standards to ensure the reliability and accuracy of the Aptis scores. All questions in the test are extensively trialled and only those which meet the requirements are included in live tests.

The Aptis test is also validated in studies by independent researchers. All technical documentation is freely available on our website.

—
Aptis for Teachers allows you to determine the English proficiency levels of teachers of any subject in a reliable and efficient way.
